DETAILED ACTION

1. Claims 16 and 17 have been examined. Claims 1-15 are cancelled.

Claim Rejections - 35 USC §101

2. 35 U.S.C. §101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim 16 is rejected under 35 U.S.C. §101 because the claimed invention is directed to non-statutory subject matter.

As per claim 16, based on Supreme Court precedent (*Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780, 787-88 (1876)) and recent Federal Circuit decisions, §101 process must (1) be tied to a particular machine) or (2) transform underlying subject matter (such as an article or materials) to a different state or thing (the Supreme Court recognized that this test is not necessarily fixed or permanent and may evolve with technological advances. *Gottschalk v. Benson*, 409 U.S. 63, 71 (1972)).

If neither of these requirements is met by the claim(s), the method is not a patent eligible process under 35 U.S.C. §101. In this particular case, regarding the first test, in performing the steps of the claimed subject matter, there is no requirement that a machine be used, thus the claims are not considered sufficiently tied to another

Art Unit: 3696

statutory class. The claim recites querying a central database, however, this recitation is not considered significantly limiting to define a machine (e.g. a database could be a collection of paper files; a query could be a written request to search for a particular paper file).

Regarding the second test, since the claimed subject matter may be performed using only human activity, the steps do not sufficiently transform the underlying subject matter to be statutory.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

5. Claims 16 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Weber.

As per claims 16 and 17, Weber teaches a method for initiating a witness audit comprising:

Art Unit: 3696

periodically receiving input specifying a query to a central database storing

information representing a plurality of available audits (Weber: [0052]),

each of the queries based on requirements of the witness audit including at

least one of

time period (Weber: [0056]; [0061]; [0062]; [0070]),

SIC code

and

accreditation type;

for each of the queries, providing a list of the available audits responsive to the

query (Weber: [0053]-[0054]; [0073]);

Art Unit: 3696

displaying one or more scheduled dates for a selected audit (Weber: [0056]; [0061];

[0073]);

receiving input representing a confirmation of the one or more scheduled dates for

the selected audit (Weber: [0059]; [0061]; [0073]);

and

storing the confirmation in a corresponding field of the central database (Weber:

[0059]).

Response to Arguments

6. All claims are new, thus there are no arguments presented. New grounds of rejection are provided.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3696

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
